We admire nature and all living things in it...

*We are aware that damage caused to nature anywhere
around the world is also our problem.*

*We are trying to give back we recieved from nature
by planting 500 saplings every year.*

You must see the future every time you touch nature...
www.docev.org.tr

A landscape of charred tree trunks under a dramatic, cloudy sky at sunset or sunrise. The sky is filled with large, billowing clouds in shades of pink, orange, and grey. The sun is low on the horizon, creating a bright glow and casting long shadows. The foreground is filled with numerous dark, skeletal tree trunks that stand as silent sentinels in a desolate, post-fire environment. The ground is dry and rocky, with some scattered twigs and branches.

Nature doesn't like gaps ...
